Light

Dark

The image displays four screenshots of a mobile application interface, arranged in a 2x2 grid. The top row shows the 'Balance' section, and the bottom row shows the 'Positions' section. The left column represents the 'Light' theme, and the right column represents the 'Dark' theme. Each screenshot includes a timestamp (2:27 or 2:28), signal strength, battery level, and navigation tabs: ACCOUNT, WATCHLIST, PROFILE.

**Balance Section (Top Row):**

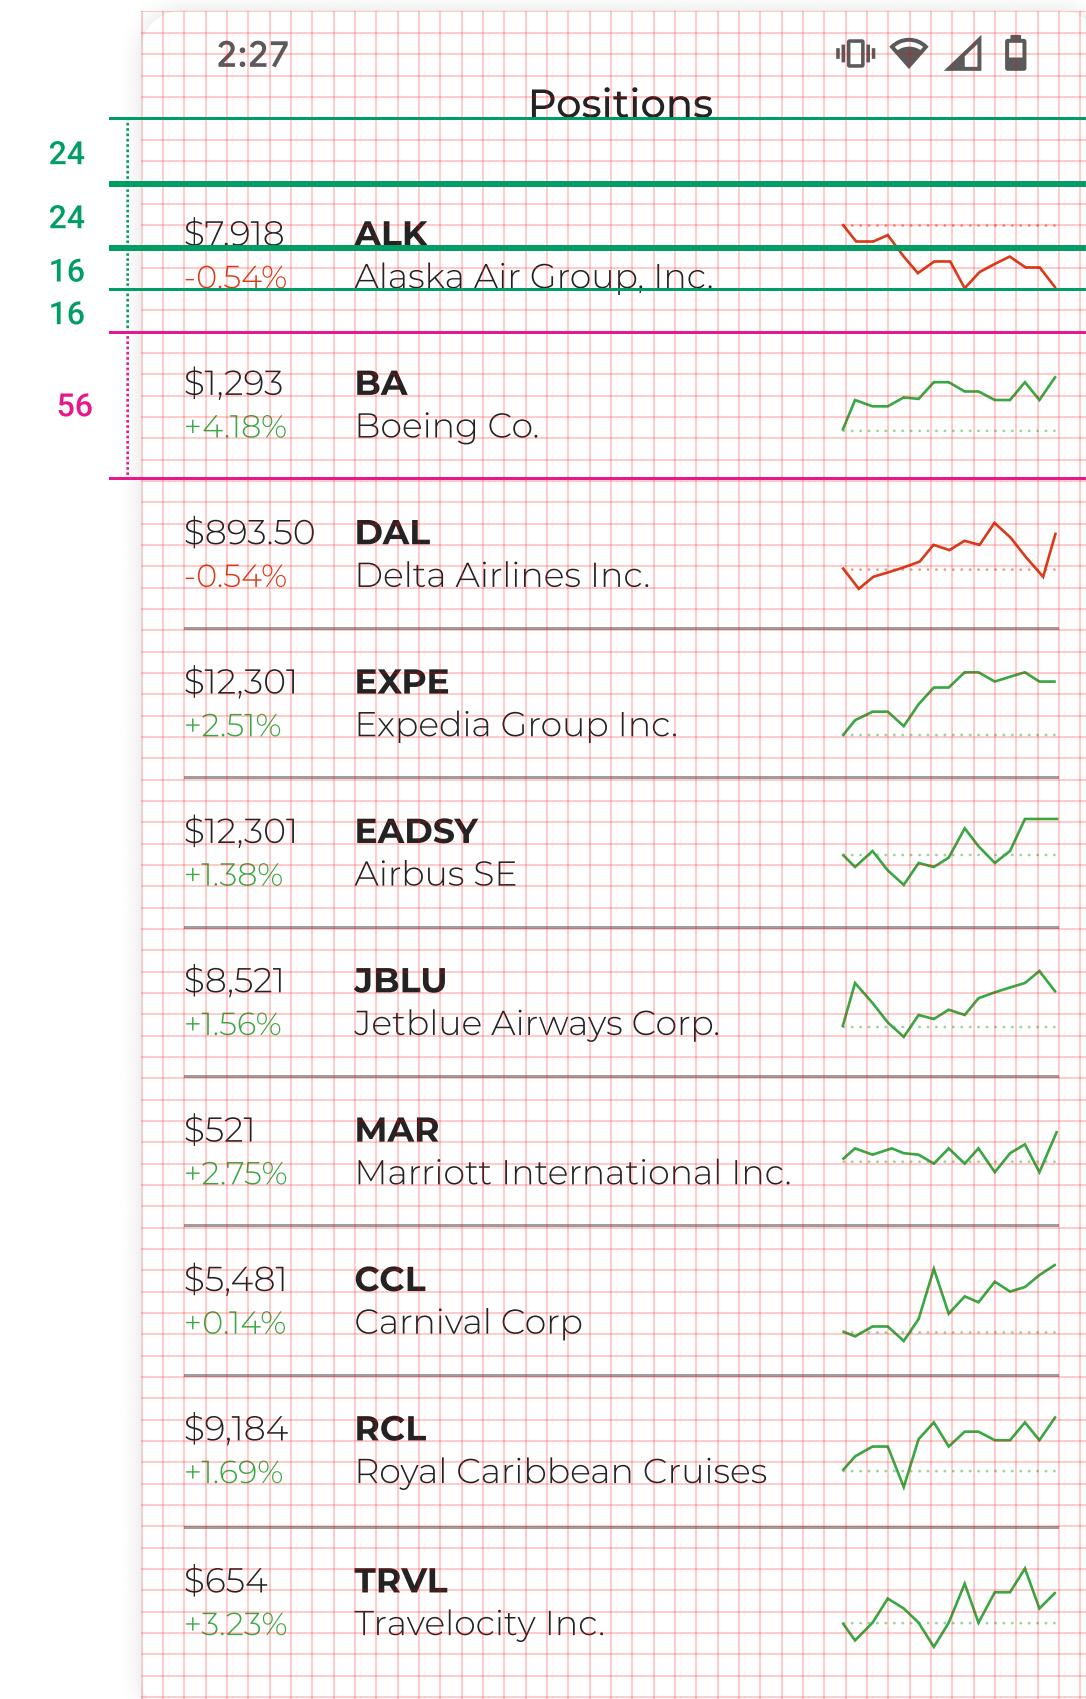

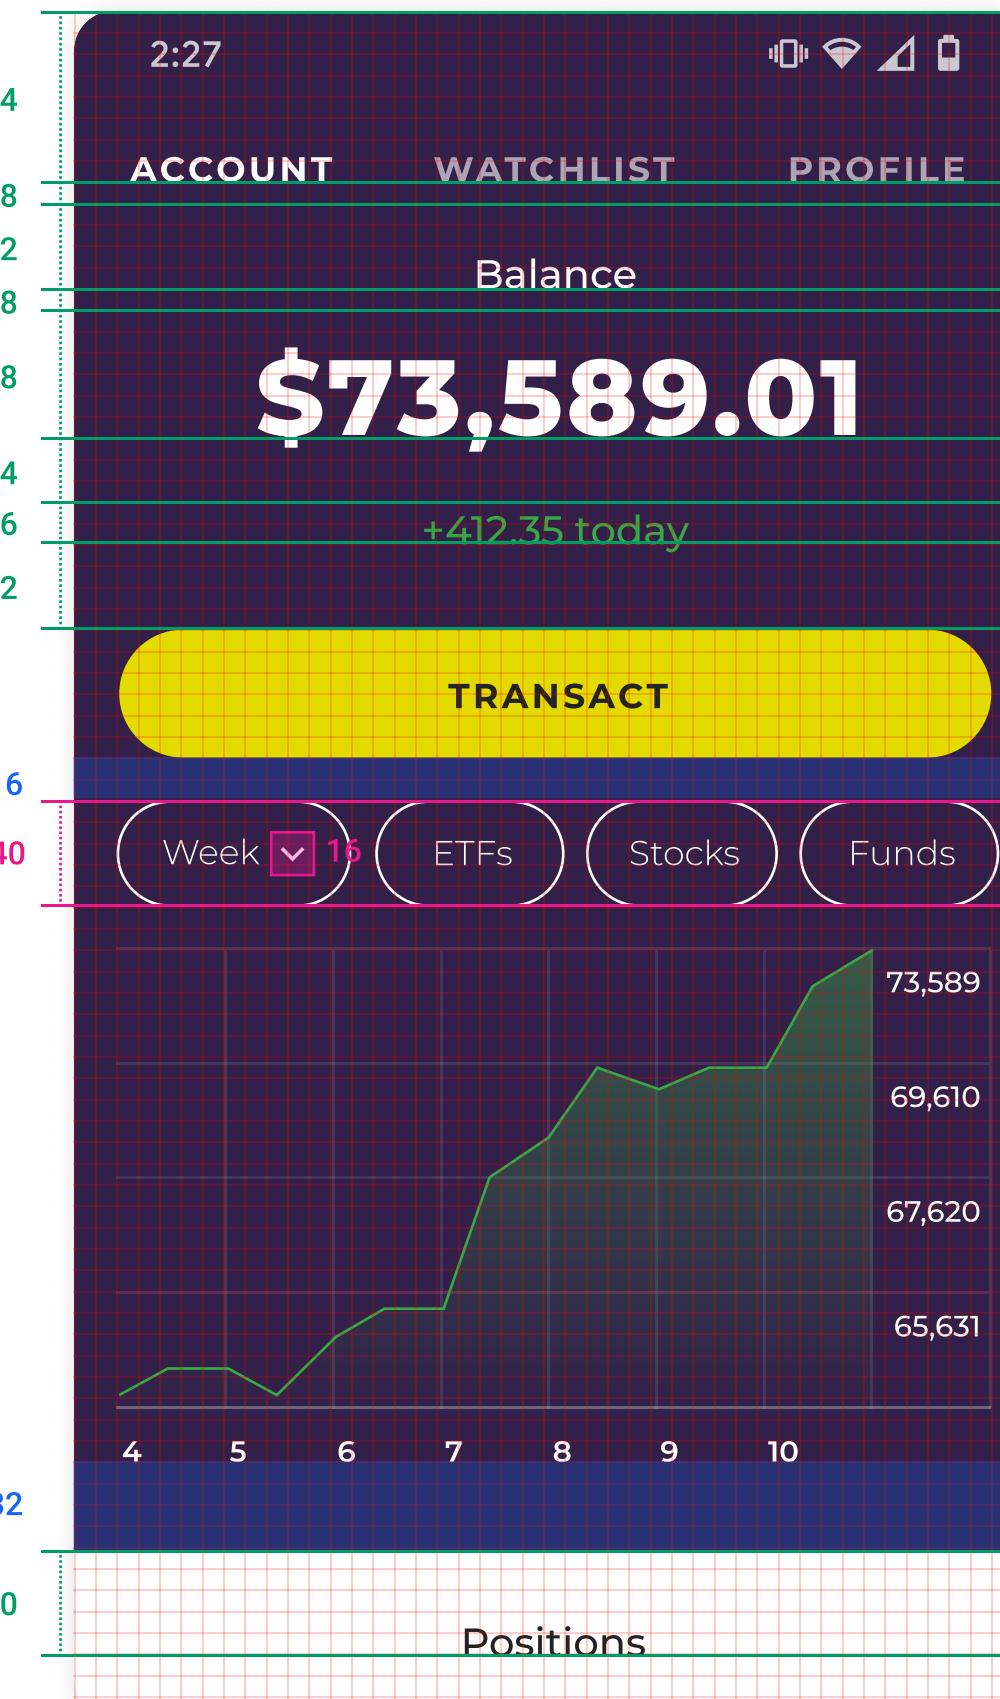

- Light:** Shows a large balance of \$73,589.01 with a green '+412.35 today' indicator. Below it is a yellow 'TRANSACT' button and a line graph showing account growth from week 4 to 10. The graph starts at 65,631, rises to 67,620, 69,610, and ends at 73,589. Navigation buttons for 'Week', 'ETFs', 'Stocks', and 'Funds' are visible.
- Dark:** Shows the same balance and growth graph. The 'TRANSACT' button is yellow, and the background is dark. Navigation buttons for 'Week', 'ETFs', 'Stocks', and 'Funds' are visible.

**Positions Section (Bottom Row):**

- Light:** Shows a list of ten positions with current values, percentage changes, and stock symbols. Each position also features a small line chart indicating recent price movement. The list includes ALK, BA, DAL, EXPE, EADSY, JBLU, MAR, CCL, RCL, and TRVL.
- Dark:** Shows the same list of positions and movement charts. The background is dark, and the text and charts are white or light-colored for contrast.
